CONGRATULATIONS TO 5/6 MELVIN & 6 TENWOLDE!

From Ms. Melvin: 2025 Watts-Off Energy Challenge!

The Challenge kicked off on January 6th and the winners were announced the week before March break! This challenge was designed specifically with Grade 6 energy curriculum outcomes in mind. We competed against 7 other classes across Nova Scotia to complete energy activities, gain points and we won the grand prize!

- Each week had a specific electricity/energy-related theme and corresponding activities to complete.
- For everything we completed, our classes earned points.
- The class with the top points at the end of the 6 weeks won the grand prize. We won by 1 point with a total of 231 points.
- We will have an in-person visit booked for this Friday. During the visit, we will receive our prize, an energy basket, and take part in some exciting hands-on activities and movement-based learning that aren't included in the virtual engagement.
- We are also receiving a class pizza party as a thank you for participating.

IMPORTANT DATES- MARCH/APRIL 2025

MARCH 28 – RECIPES IN A JAR CAMPAIGN CLOSES.

APRIL 2 – REPORT CARDS EMAILED ELECTRONICALLY

APRIL 3 – PD IN AM FOR TEACHERS (NO STUDENTS). (PARENT TEACHER) STUDENT LED CONFERENCES PM AND EVENING

WHAT ARE STUDENT LED CONFERENCES?

Like last year, our school is doing student led conferences for our April Parent Teacher day/evening. Student-led conferences put students in charge of discussing their progress, goals, and learning with parents and teachers. This approach fosters ownership of their education, builds confidence, and strengthens communication and reflection skills.

We will be using SchoolInterviews.ca again. It will go live on Thursday March 27th. You can find the link on our website.
