Please describe a summary of work undertaken by the SAC to improve student achievement and school performance.

The SAC supported our work on equity by paying for the picture books that we wanted our staff to have access to that they will be using in their classrooms.

The SAC also supported field trips by covering some of the costs so that students and their families would not have to pay. This provided an equitable opportunity for all of our families.

The SAC supported the school by contributing to the costs of purchasing some school supplies for the next school year. For the past number of years we have purchased some of the items that would have been on the supply list in order to reduce the pressure on our families.

Our SAC chair, along with the principal, attended the annual SAC conference in November. Both provided feedback via the survey.

Please list any significant milestones and success stories that the SAC would like to highlight.

Our SAC supported our students and families by covering the costs of field trips and admissions so that families didn't have to bear the cost.

Please describe any related sub-committee work undertaken by SAC members (e.g., School Options Committee).
